Better Plans • Better Projects

Chief Experts Academy provides ongoing training, support, and content for contractors and designers involved in the sales and development of plans for residential and light commercial buildings.

With more than 24 years of experience teaching Chief Architect, Dan is highly qualified to teach you the best practices needed to complete your building plans and models using this software. His 20 years of experience as a remodeling contractor also give him the insights into what it takes to run a successful design-build construction company.

Dan's passion for maximizing the compensation you receive for your design services helps ensure that your design sales become a profit center.

Having drawn thousands of plans and taught thousands of people how to get the most out of Chief Architect, Dan looks forward to helping you create better plans in less time.

Our Mission

We believe that the design process of any project is the most important part of the job, and that better plans means better projects. To this end, we strive to give you the best training, tools, and resources you need to complete your plans as quickly and accurately as possible using Chief Architect. You deserve to be compensated fairly for the knowledge, time, and expertise you put into completing each plan.
